

6 February 2018,

Subject: FME World Tour 2018 – At Sunway Resort Hotel & Spa

FME technology has evolved from the ETL (Extract Transform Load) software to the multi tool for connecting, transforming and automating processes save easily time with data Integration

Attendees will discover real time data delivery of FME 2018 and enhanced user experience with faster and simpler ways to use and share their data. This year will emphasis on FME Cloud, non-spatial data (mainly web) and some raster example for flood simulation. Besides the usual what's New and what can FME Desktop, Server and Cloud do for you our event will be launched by a special guest (it is a surprise).

Come and join us by returning fully completed attached registration form before 8thth May 2018. Lucky participants will get the chance to win some great swags and two (2) special lucky draw gifts worth RM400 each.

Safe Software's FME is highly regarded and widely used in mapping, cadastral, data infrastructure, military, law enforcement, environment, local councils, agriculture, forestry, oil and gas, utility, highway, transportation, remote sensing, BIM, open data and database management internationally.

Safe Software also has free university grants to be used for teaching or research. Should you have any questions please contact us at sales@gis.fm or 03-5612 7025

Sincerely yours,
GIS Innovation Sdn Bhd

Lyes Mokraoui
Managing Director/Senior Geospatial Consultant.

FME World Tour 2018 - KUALA LUMPUR – MALAYSIA 8th MAY 2018 *

*This event is jointly organised by GIS Innovations Sdn Bhd in collaboration with Safe Software Inc.

Register Now

**Event - Monday, 8th May, 2018
09:00 AM - 5:00 PM (registration starts at 8:00 A.M)**

Venue:

Sunway Resort Hotel & Spa
Persiaran Lagoon,
Bandar Sunway,
46150 Petaling Jaya, Selangor

GIS Innovation Sdn Bhd (557976-H)

E-6-17, Sunway Geo Avenue 2, Jalan Lagoon Selatan, Bandar Sunway, 47500 Subang Jaya,
Selangor Darul Ehsan, Malaysia Tel : +603-56127025 Email: sales@gis.fm web: <http://www.GIS.com.my>

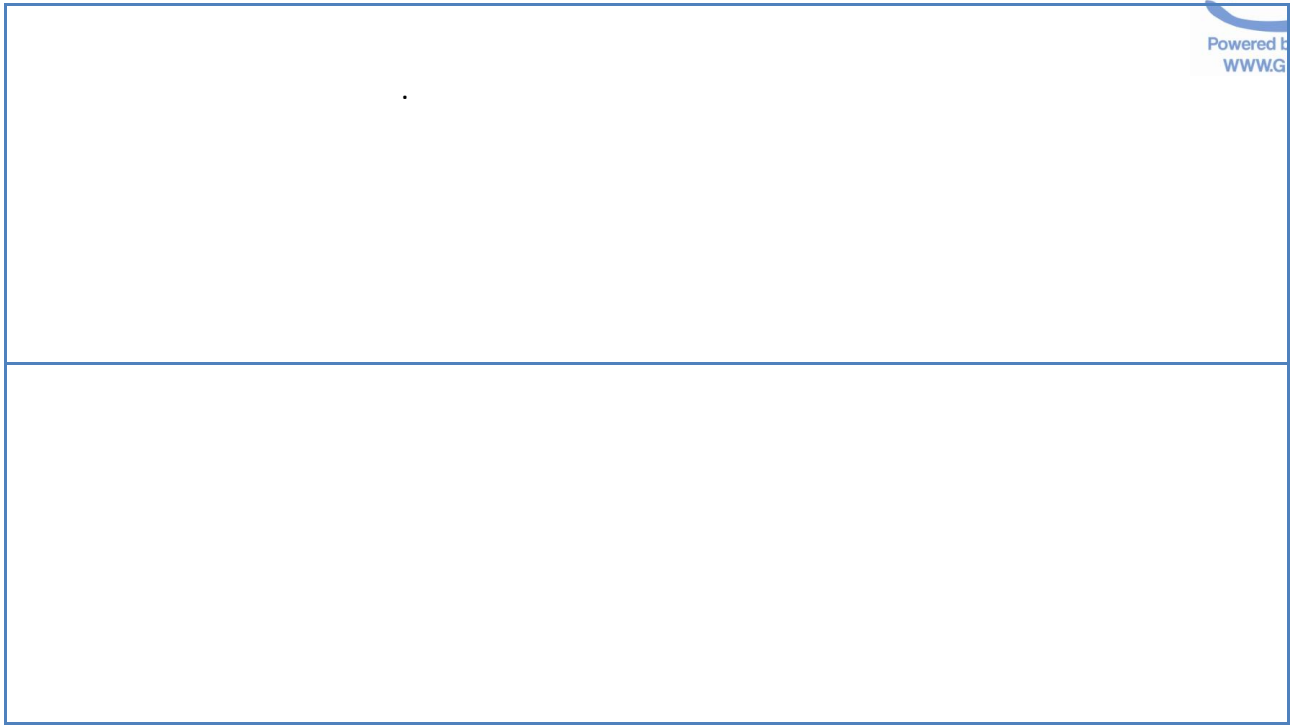

Speakers :

“Dean Hintz” is a Certified FME Professional and Senior Analyst for Safe Software, helping customers design and prototype applications based on the FME's spatial data transformation platform within desktop, server and cloud environments. His focus areas include XML/GML/JSON, OGC web services, raster, 3D, point clouds, and implementations in areas such as EU INSPIRE, AIXM, and CityGML, and UAVs. Dean has a B.Sc. in Computer Science (Geography) from Trinity Western University, Canada.

“Lyes Mokraoui”, GIS Innovations Sdn Bhd's owner and GIS specialist. He has over 20 years' experience in GIS application development with advanced knowledge in ArcView, ArcGIS, FME Desktop and Server. An internationally certified FME trainer he has conducted various training on FME and ESRI's platform within Malaysia and internationally. He has extensive experience in geographic database development and data migration. Lyes Mokraoui holds a degree in Mining Geology and had worked few years as mining geologist before making a foray into GIS industry. Lyes is also a certified FME Professional, Certified FME Desktop Professional and a Certified FME Trainer.

Program Overview :

Join us at **Sunway Resort Hotel & Spa** for the FME 2018 World Tour*. You'll learn about new tools and enhancements in FME 2018, the new additions to FME Desktop and the new FME Server Interface. Not to forget, we will show you what FME Cloud can do for you.

- Learn how the new capabilities in FME 2018 can help your workflows
- Build your FME skills through how-to and best practice sessions
- Get tips and practical new ideas via presentations from FME users
- Receive technical assistance from FME Certified Professionals
- Learn more about FME Cloud 2018
- Network with FME users from other organizations

Who should attend?

- People in need to develop workflows throughout an organization by manipulating incoming data either to process data for quality control or simply value add the data. Geoprocessing huge amount of data originally created by a third party software or to learn how to manipulate web API to extract data.
- Students and lecturers using GIS technologies in teaching and project work.
- Government officials managing GIS databases
- IT executives handling GIS related project and companies looking to embark on GIS implementation.
- GIS/CAD experts interested to master spatial data interoperability such as local councils, enforcement, environment, data infrastructure agencies, oil and Gas companies

A Word about Safe Software, Inc.

Safe Software began business in 1993, helping forestry companies exchange maps with the provincial government. It was technically possible to share the maps back then, but only after hours fighting with the data. Often, an incredible amount of information was lost in the process.

Safe Software Inc. a Canadian based company world's leader in spatial data interoperability capable technology, providing software and consulting services focused on managing the exchange of both spatial (geographic) and non-spatial data between GIS applications and/or relational databases with differing file formats and structures See www.safe.com for more information.

In short, nobody was happy. We built FME to change that.

We didn't start out with a business plan, but we did have a desire to help. Our passion for freeing data was ignited, and we've been on a mission to help people experience that freedom ever since. We're continuing to expand what's possible with FME, the data integration software with the best spatial support in the world.

FME Server (released in 2008) further enhances a user's ability to distribute and deliver data in variety of formats by way of a variety of services such as WFS, WMS, SOAP, KML as well as basic streaming.

Other OEM products sold or incorporated by other GIS / CAD companies: MapInfo's universal Translator, ESRI ArcGIS Interoperability Extension,

Note: This agenda may be altered to accommodate user presentations:

SCHEDULE AND AGENDA			
8:00a.m -9:00 a.m	Registration		
9:00 a.m - 9:15 a.m	Introduction to FME and Safe Software	GIS Innovation Sdn Bhd / Safe Software Inc,	Surprise guest ! (via webinar)
9:15 a.m - 09:45 a.m	Introducing FME Desktop 2018	GIS Innovation Sdn Bhd / Safe Software Inc,	Dean Hintz / Lyes Mokraoui
9:45 a.m – 10:15 a.m	Reporting Data using the Microsoft Word/PowerPoint writing capabilities (reporting)	GIS Innovation Sdn Bhd	Lyes Mokraoui
10:15 a.m -10:45 a.m	Break		
10:45 a.m -11:15 a.m	FME Server 2018	GIS Innovation Sdn Bhd / Safe Software Inc.	Dean Hintz / Lyes Mokraoui
11:15 a.m -11:45 a.m			
11:45 a.m – 12:15 p.m	Slope Classification with FME Desktop, methods used	GIS Innovation Sdn Bhd	Lyes Mokraoui
12:15 p.m – 12:30	Q&A Session	GIS Innovation Sdn Bhd / Safe Software Inc.	Dean Hintz / Lyes Mokraoui
12:30 p.m -1:45 p.m	Break and Lunch		
1:45 p.m -2:15 p.m	Getting Data Together from a non-spatial perspective	GIS Innovation Sdn Bhd	Lyes Mokraoui
2:15 p.m -2:45 p.m	FME Cloud 2018	GIS Innovation Sdn Bhd	Dean Hintz / Lyes Mokraoui
2:45 p.m -3:15 p.m	Break		
3:15 p.m. – 3:45 p.m	Flood simulation with FME Desktop	Safe Software	Dean Hintz
3:45 p.m. – 4:15 p.m	FME Cloud	GIS Innovation Sdn Bhd / Safe Software Inc.	Dean Hintz / Lyes Mokraoui
4:15 p.m – 4:45 p.m	FME AR format	GIS Innovation Sdn Bhd	Lyes Mokraoui
4:45 p.m - 5 p.m	Closing of the event and lucky draw.	GIS Innovation Sdn Bhd / Safe Software Inc.	Dean Hintz / Lyes Mokraoui

REGISTRATION FORM:	
Company name:	
Address:	
City:	State:
Zip:	
Tel:	Fax:
Email address:	

Kindly RSVP before 28th April 2018

Mode of Payment:	
Fees:	
Government/Commercial:	RM280.00 per attendee (Excluding 6% GST)
Universities:	RM250.00 per attendee (Excluding 6% GST) Full payment to be made prior to the event.
Mode of Payment:	
a. PayPal:	An additional charge of 4.5% will be imposed
b. Bank in	Maybank Berhad: GIS INNOVATION Sdn Bhd. Acc/No:514356733556
